- Ownership: Employee-owned
- Investment Style: Value
- Investment Process: Bottom-up
- Total Assets Under Management: \$34.5 b
- Institutional/Private Client: \$28.2 b
- SMA Division: \$6.3 b

Since 1974, Brandes Investment Partners® has used the value approach in seeking to generate strong returns in the various equity markets in which it participates. Our Global Mid Cap Equity Strategy is dedicated to the medium-cap segment of global markets.

Today, over half of the world's equity value is located outside the United States. This means that substantial investment opportunities are located in non-U.S. markets. In seeking issues for our Global Mid Cap Equity Strategy, we search worldwide for companies meeting our strict investment criteria.

Investment candidates in the medium-cap segment often blend the growth potential enjoyed by small firms with the stability and resources typically associated with larger companies. In addition, medium-sized companies tend to attract less coverage by research analysts than their large-cap counterparts, creating a greater possibility for us to take advantage of unrecognized investment opportunities. As a result of our focus on individual security selection, the portfolio's country allocation will vary based upon where we find what we believe to be the best investment opportunities.

Our Global Mid Cap Equity Strategy applies a Graham & Dodd value approach to stock selection. Generally, a security will be bought if it is trading below what we believe to be its estimated value. This conservative approach strives to provide investors with both a margin of safety and long-term appreciation. The margin of safety for any security is defined as the discount of its market price to what the firm believes is the intrinsic value of that security.

### Mid Cap Investment Committee:

Chris Duncan, CFA - Senior Analyst  
 Michael Hutchens, CFA - Senior Analyst  
 Ted Kim, CFA - Senior Analyst  
 Kenneth Little, CFA - Director

### Executive Committee:

Charles H. Brandes, CFA - Chairman  
 Jeffery A. Busby, CFA - Executive Director  
 Glenn R. Carlson, CFA - Chief Executive Officer  
 Gary Iwamura, CPA - Director  
 Brent V. Woods, CFA - Managing Director

## SEEKS TO OFFER:

- Worldwide diversification
- Long-term capital appreciation
- Diversification benefits for investors with portfolios primarily invested in large- and/or small-cap equities
- Value approach to global equity investing

## FEATURES:

- Application of Graham & Dodd philosophy
- Undervalued U.S. and non-U.S. stocks
- Companies with comparatively low price/earnings, price/cash flow, and price/book valuation ratios
- Diversification across a wide range of countries and industries

For a more complete discussion of the risks of investing in this vehicle, consult Brandes' Form ADV, Part 2A.

## Annualized Performance (net of fees) - Through March 31, 2012

All returns greater than one year are annualized

	Latest Quarter	1 Year	3 Years	5 Years	7 Years	10 Years	Since Inception (9/30/1997)
Brandes Global Mid Cap Equity	16.9%	-5.1%	29.6%	-4.1%	0.1%	4.2%	4.9%
FTSE World Mid Cap Index (a)	13.3%	-1.9%	24.7%	0.5%	6.3%	8.1%	6.9%
S&P Developed 1B-5B Index (b)	12.8%	-2.6%	26.1%	1.2%	6.7%	9.2%	7.8%

## Fundamental Summary\* - Weighted averages as of March 31, 2012

	Mkt Cap (U.S.\$)	Price/Book	Price/Earnings	Price/Cash Flow	LT Debt/Equity	YLD
Brandes Global Mid Cap Equity	\$4.5 billion	0.9x	11.4x	4.4x	87.1%	2.9%
FTSE World Mid Cap Averages	\$6.6 billion	1.6x	15.2x	8.2x	104.0%	2.2%

\*Glossary: **Mkt Cap**: Market Capitalization – the number of common shares outstanding multiplied by the current market price per common share. **Price/Book**: Price per share divided by book value per share. **Price/Earnings**: Price per share divided by earnings per share. **Price/Cash Flow**: Price per share divided by cash flow per share. **LT Debt/Equity**: Long-term debt of a corporation divided by the corporation's common equity. **YLD**: annual income from the investment (dividend, interest, etc.) divided by the current market price of the investment.

## Country Exposure: Top 10

As of 03/31/12

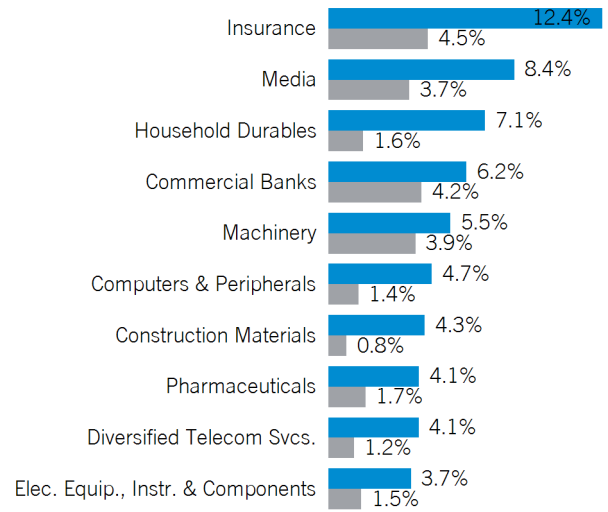

Brandes Global Mid Cap Equity

FTSE World Mid Cap Index

## Industry Exposure: Top 10

As of 03/31/12

We select holdings without reference to an index. Each security is selected based purely on its own merits. Industry and country weightings are residuals of our bottom-up stock selection process.

## Growth of \$100,000 (Net) 09/30/1997 (inception) to 03/31/2012

Past performance is not a guarantee of future results.

This is a hypothetical example intended for illustrative purposes only. Actual results will vary.

Performance shown is supplemental to the accompanying Global Mid Cap Equity composite performance pages.

The portfolio characteristics shown relate to a single account as of date noted, deemed by Brandes to be generally representative of its standard accounts noted. Not every account will have these exact characteristics. The actual characteristics with respect to any particular account will vary based on a number of factors including but not limited to: (i) the size of the account; (ii) investment restrictions applicable to the account, if any; and (iii) market exigencies at the time of investment. Data is updated on a quarterly basis.

The foregoing reflects the thoughts and opinions of Brandes Investment Partners exclusively and is subject to change without notice. The information provided in this material should not be considered a recommendation to purchase or sell any particular security. It should not be assumed that any security transactions, holdings, or sectors discussed were or will be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance discussed herein. Portfolio holdings and allocations are subject to change at any time. Strategies discussed herein are subject to change at any time by the investment manager in its discretion due to market conditions or opportunities. Indices are unmanaged and are not available for direct investment. Market conditions may impact performance. The performance results presented were achieved in particular market conditions which may not be repeated. Moreover, the current market volatility and uncertain regulatory environment may have a negative impact on future performance. Diversification does not assure a profit or protect against a loss in a declining market. International and emerging markets investing is subject to certain risks such as currency fluctuation and social and political changes; such risks may result in greater share price volatility.

(1) As of January 1, 2006, "Total Firm Assets" do not include SMA Division assets.

(2) The measure of dispersion is the asset-weighted standard deviation for annual periods. No measure is displayed when there are five or fewer portfolios in the composite for an entire annual period. As such, measure may not be meaningful. The 2011 annual period asset-weighted standard deviation measure of dispersion is preliminary and the 2011 percentage of non-fee paying assets is preliminary.

\* The net and gross quarterly and annual returns, calculated in USD, presented for the Brandes Global Mid Cap Equity composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. As of 4/1/2006 all custodial fees are treated as administrative fees. In June 2002, Brandes Investment Partners, L.P. changed its organizational structure from a limited partnership to a limited liability corporation formed under the name Brandes Investment Partners, LLC. On October 18, 2004, Brandes Investment Partners, LLC became a Delaware limited partnership with the name Brandes Investment Partners, L.P. Brandes Investment Partners, L.P. is a registered, independent investment management firm. As of January 1, 2006, Brandes Investment Partners was divided into two separate divisions: the SMA Division of Brandes Investment Partners, which acts as a discretionary manager to SMA or "wrap fee" program clients, including those who may invest in an SMA product; and the non-SMA Division of Brandes Investment Partners (Brandes), which acts as a discretionary manager for all other types of clients which may include pooled investment vehicles, institutional accounts and high net worth clients outside of wrap fee programs. Although the divisions may share portfolio management and other personnel, each division serves a particular target market, may trade in a different manner and may offer investment advice which differs from the other depending upon the individualized needs of the clients served. The performance data presented does not contain any SMA Division accounts.

Prior to 1/1/2000 cash flows were weighted using a mid-month assumption, beginning 1/1/2000 cash flows are weighted on a daily basis.

This composite was created in 1997.

Securities transactions are accounted for on the trade date. Dividend and interest income is accounted for on an accrual basis. Cash and cash equivalents are included in performance returns.

Accounts are removed from the composite when an account's market value falls below US\$50,000 due to capital withdrawals.

The Brandes Global Mid Cap Equity composite results include all actual, fee-paying and non-fee-paying, fully discretionary Global Mid Cap Equity accounts under management by Brandes Investment Partners after one full calendar month beginning 9/30/1997 (except for the Brandes Global Mid Cap Equity pooled account which was fully invested at its inception), that have substantially the same investment objectives, policies, techniques and restrictions.

Standard fee schedule - From \$100,000 but less than \$1 million: First \$500,000 1.50%; Next \$499,999 1.25%; From \$1 million up to \$10 million: First \$5 million 1.20%; Next \$5 million 1.10%; From \$10 million and over: First \$10 million 1.15%; Next \$10 million 1.00%; Next \$30 million 0.90%; Amounts over \$50 million 0.80%.

The gross returns do not give effect to investment advisory fees, which would reduce such returns. Investment management fees and any other expenses that may be incurred in the management of the account will reduce actual returns. When fees are deducted quarterly total portfolio performance will be reduced at a compounded rate. Beginning January 1, 2007, composite performance after management fee returns are determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account.

The weighted annualized management fee during the period 9/30/1997 through 12/31/2010 was 1.04% per year.

Brandes claims compliance with the Global Investment Performance Standards (GIPS™) and has prepared and presented this report in compliance with the GIPS standards. Brandes has been independently verified for the annual periods 1995 through 2010 by Ernst & Young, LLP. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Global Mid Cap Equity composite has been examined for the periods since inception through year end 2010. The verification and performance examination reports, a complete list and description of Brandes' composites and additional information regarding policies for valuing, calculating and reporting returns are available upon request.

The results for individual accounts and for different periods may vary. Investors should not rely on prior performance results as a reliable indication of future results. Market conditions may impact performance. The performance results presented were achieved in particular market conditions which may not be repeated. Moreover, the current market volatility and uncertain regulatory environment may have a negative impact on future performance.

(a) The FTSE World Mid Cap Index with gross dividends is an unmanaged, free float-adjusted market capitalization weighted index that tracks medium capitalization companies in 35 countries, including the United States. This index includes dividends and distributions, but does not reflect fees, brokerage commissions, withholding taxes, or other expenses of investing.

(b) The S&P Developed \$1-5 Billion Index with gross dividends is an unmanaged, float-adjusted market capitalization weighted index that measures the equity performance of companies around the developed world, including the United States that have market capitalizations between \$1 and \$5 billion (USD). This index includes dividends and distributions, but does not reflect fees, brokerage commissions, withholding taxes, or other expenses of investing.

Please note that all indices are unmanaged and are not available for direct investment.

Effective 6/30/2008, the Global Mid Cap Equity Portfolio (GMC) opened to new investors and to contributions from existing clients. Effective 11/1/2007, GMC opened for contributions from existing GMC clients as well as new GMC accounts by existing clients in other portfolios. Effective 11/30/2004, GMC closed to contributions from existing clients and on 6/30/2004, closed to new investors.
