(1) As of January 1, 2006, "Total Firm Assets" do not include SMA Division assets.

(2) The measure of dispersion is the asset-weighted standard deviation for annual periods. No measure is displayed when there are five or fewer portfolios in the composite for an entire annual period. As such, measure may not be meaningful. The 2011 annual period asset-weighted standard deviation measure of dispersion is preliminary and the 2011 percentage of non-fee paying assets is preliminary.

* The net and gross quarterly and annual returns, calculated in USD, presented for the Brandes Global Equity composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. As of 4/1/2006 all custodial fees are treated as administrative fees.

In June 2002, Brandes Investment Partners, L.P. changed its organizational structure from a limited partnership to a limited liability corporation formed under the name Brandes Investment Partners, LLC. On October 18, 2004, Brandes Investment Partners, LLC became a Delaware limited partnership with the name Brandes Investment Partners, L.P. Brandes Investment Partners, L.P. is a registered, independent investment management firm. As of January 1, 2006, Brandes Investment Partners was divided into two separate divisions: the SMA Division of Brandes Investment Partners, which acts as a discretionary manager to SMA or "wrap fee" program clients, including those who may invest in an SMA product; and the non-SMA Division of Brandes Investment Partners (Brandes), which acts as a discretionary manager for all other types of clients which may include pooled investment vehicles, institutional accounts and high net worth clients outside of wrap fee programs. Although the divisions may share portfolio management and other personnel, each division serves a particular target market, may trade in a different manner and may offer investment advice which differs from the other depending upon the individualized needs of the clients served. The performance data presented does not contain any SMA Division accounts.

Prior to 1/1/2002 cash flows were weighted using a mid-month assumption, beginning 1/1/2002 cash flows are weighted on a daily basis.

This composite was created in 1978.

Securities transactions are accounted for on the trade date. Dividend and interest income is accounted for on an accrual basis. Cash and cash equivalents are included in performance returns.

Accounts are removed from the composite when an account's market value falls below US\$50,000 due to capital withdrawals.

The Brandes Global Equity composite results include all actual, fee-paying and non-fee-paying, fully discretionary Global Equity accounts under management by Brandes Investment Partners, that have substantially the same investment objectives, policies, techniques and restrictions. In the period beginning 1/1/1980 through 12/31/1997, the Brandes Global Equity composite results include accounts under management after one year. Beginning 1/1/1998, the Brandes Global Equity composite results include accounts under management after one full calendar month.

Standard fee schedule - From \$100,000 but less than \$1 million: First \$500,000 1.50%; Next \$499,999 1.25%; From \$1 million up to \$10 million: First \$5 million 1.00%; Next \$5 million 0.90%; From \$10 million and over: First \$10 million 0.95%; Next \$10 million 0.80%; Next \$30 million 0.60%; Amounts over \$50 million 0.50%.

The gross returns do not give effect to investment advisory fees, which would reduce such returns. Investment management fees and any other expenses that may be incurred in the management of the account will reduce actual returns. When fees are deducted quarterly total portfolio performance will be reduced at a compounded rate. Beginning January 1, 2007, composite performance after management fee returns are determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account.

The weighted annualized management fee during the period 12/31/1977 through 12/31/2010 was 0.87% per year.
