

Brandes Core Plus Fixed Income

- **Flexibility:** Designed for income-oriented investors who are also seeking some potential value from active management of their bond portfolios.
- **Focus:** Primarily invests in high quality U.S. Treasury, agency and corporate debt obligations. The portfolio may be invested in a total of up to 25% of its assets, determined at the time of purchase, in each of non-U.S. dollar denominated debt instruments and non-investment grade debt obligations. A minimum of 75% of the investments must be rated investment grade by a nationally recognized rating agency at the time of purchase.

Performance (USD%) as of 9/30/19

WHY BRANDES

- **Experience:** Graham-and-Dodd active value specialists since 1974.
- **Team-Driven Investment Process:** Bottom-up value bonds selection based on collaboration, diverse perspectives and constructive debate.
- **Proprietary Research and Internal Rating Discipline:** Empowers us to think, and invest, independently from the benchmark in the long-term interests of our clients.

"Value bonds" refers to bonds which are selling at discounts to our estimates of their intrinsic value.

Internal Rating Discipline: the Brandes fixed-income team conducts its own analysis of issuers' credit worthiness.

Strategy Composition

Maximum exposure to corporate securities	60%
Maximum exposure to high yield	25%

By Sector (% of assets)

Source: Brandes, BondEdge Solutions.

Duration: the weighted maturity of a fixed-income investment's cash flows, used in the estimation of the price sensitivity of fixed-income securities for a given change in interest rates. **Yield:** annual income from the investment (dividend, interest, etc.) divided by the current market price of the investment. **Yield to Maturity:** the rate of return anticipated on a bond if it is held until the maturity date. **Average Coupon:** the annual rate as a percentage of par that the issuer has agreed to pay the bondholder.

The portfolio characteristics shown relate to a single account deemed by Brandes to be generally representative of the strategy as of date noted. Not every account will have these exact characteristics. The actual characteristics with respect to any particular account will vary based on a number of factors including but not limited to: (i) the size of the account; (ii) investment restrictions applicable to the account, if any; and (iii) market exigencies at the time of investment. Data is updated on a quarterly basis.

Unlike bonds issued or guaranteed by the U.S. government or its agencies, stocks and other bonds are not backed by the full faith and credit of the United States. Stock and bond prices will experience market fluctuations. Please note that the value of government securities and bonds in general have an inverse relationship to interest rates. Bonds carry the risk of default, or the risk that an issuer will be unable to make income or principal payment. There is no assurance that private guarantors or insurers will meet their obligations. The credit quality of the investments in the portfolio is no guarantee of the safety or stability of the portfolio. Investments in Asset Backed and Mortgage Backed Securities include additional risks that investors should be aware of such as credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments.

Bond ratings are grades given to bonds that indicate their credit quality as determined by a private independent rating service such as Standard & Poor's. The firm evaluates a bond issuer's financial strength, or its ability to pay a bond's principal and interest in a timely fashion. Ratings are expressed as letters ranging from 'AAA', which is the highest grade, to 'D', which is the lowest grade. In limited situations when the rating agency has not issued a formal rating, the Advisor will classify the security as nonrated.

The information provided in this material should not be considered a recommendation to purchase or sell any particular security. It should not be assumed that any security transactions, holdings or sectors discussed were or will be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance discussed herein. Strategies discussed are subject to change at any time by the investment manager in its discretion due to market conditions or opportunities. The Brandes investment approach tends to result in portfolios that are materially different than their benchmarks with regard to characteristics such as risk, volatility, diversification, and concentration.

GIPS Composite Information

Composite Name: Brandes Core Plus Fixed Income
Benchmark: Bloomberg Barclays U.S. Aggregate Bond Index
Reporting Date: 12/31/2018

(1) The measure of dispersion is the asset-weighted standard deviation for annual period gross returns in USD of all portfolios in the composite for the full reporting period. Beginning in 2017, dispersion is not presented for periods with less than 2 accounts in the composite. Prior to 2017, dispersion is not presented for periods with less than 6 accounts in the composite.

(2) The three-year annualized ex-post standard deviation measures the variability of the monthly gross composite returns and the benchmark returns over the preceding 36-month period. It is not presented for periods with less than 36 monthly composite returns.

* The net and gross annual returns, calculated in USD, presented for the Brandes Core Plus Fixed Income composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. Securities transactions are accounted for on the trade date. Dividend and interest income is accounted for on an accrual basis. Cash and cash equivalents are included in performance returns. Returns prior to 4/1/06 reflect the deduction of administrative fees. Returns for some accounts in the composite reflect the deduction of a broker fee that includes transaction costs and may include advisory, custody, and other administrative fees.

Beginning January 1, 2018, Brandes Investment Partners includes Brandes Investment Partners, L.P., Brandes Investment Partners (Europe) Limited, Brandes Investment Partners (Asia) Pte Ltd. and the Brandes Investment Partners & Co. assets sub-advised by Brandes Investment Partners, L.P. For the period from 1/1/06-12/31/17 the SMA Division of Brandes was excluded from the GIPS firm definition. The firm was redefined to reflect the dissolution of the SMA Division and the firm bringing those former SMA Division assets into compliance with the GIPS Standards. This composite was created in 2000.

Prior to April 2014 accounts were included in the composite when the market value is US\$1 million or greater.

The Brandes Core Plus Fixed Income Composite seeks long-term returns in excess of its benchmark (the Bloomberg Barclays U.S. Aggregate Bond Index) by investing primarily in United States government and agency debt, U.S. and non-U.S. corporate debt, mortgage-backed securities ("MBS") and asset-backed securities ("ABS"). The composite will be invested in a total of up to 25% in each of non-dollar denominated debt instruments and non-investment grade debt obligations, with the total combination of these two categories not exceeding 35% of the composite's assets as measured at the time of purchase. A minimum of 75% of the investments must be rated investment grade by a nationally recognized rating agency at the time of purchase. The composite may invest in a mutual fund (Separately Managed Account Reserve Trust, or "SMART") that is available only within the Brandes Income Strategies program.

Generally SMART is predominantly invested in corporate debt, including non-dollar denominated and non-investment grade debt obligations, but may invest in other types of securities as well. The firm believes this fixed income composite to be aggressive with regard to certain risks, especially credit risk.

The Brandes Core Plus Fixed Income composite results include all actual, fee-paying and non-fee-paying, fully discretionary Core Plus Fixed Income accounts under management by Brandes Investment Partners after one full calendar month beginning 12/31/1999 (except for the Brandes Core Plus Fixed Income pooled account which was fully invested at its inception), that have substantially the same investment objectives, policies, techniques and restrictions.

Beginning in 2006 and prior to 2nd quarter 2003 the composite performance after management fee returns are determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account. From 2nd quarter 2003 through 2005 composite performance after management fee returns were calculated using actual fees.

Standard fee schedule - Amounts under \$20 million: First \$10 million 0.35%; Next \$10 million 0.33%; From \$20 million and over: First \$20 million 0.33%; Next \$30 million 0.25%; Next \$50 million 0.20%; Next \$150 million 0.175%; Amounts over \$250 million 0.15%; Minimum Annual Fee \$66,000. Brandes' investment advisory fees are detailed in Part 2A of its Form ADV.

Brandes claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Brandes has been independently verified for the annual periods 1995 through 2018. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Core Plus Fixed Income composite has been examined for the periods since inception through year end 2018. The verification and performance examination reports are available upon request.

The complete list and description of Brandes' composites and additional information regarding policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request. Contact client service at 800-237-7119 or write 11988 El Camino Real, Suite 600, P.O. Box 919048, San Diego, California 92191-9048 or email ClientService@Brandes.com.

Investors should not rely on prior performance results as a reliable indication of future results.

(a) The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. This index is a total return index which reflects the price changes and interest of each bond in the index. The benchmark returns are not covered by the report of independent verifiers.
