Data as of 30/6/26.

Price/Book: price per share divided by book value per share. **Price/Earnings:** price per share divided by earnings per share. **Price/Cash Flow:** price per share divided by cash flow per share.
Dividend Yield: Dividends per share divided by price per share. **Active Share:** a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. **Standard Deviation:** a measure of how much an investment's returns can vary from its average return.

Market Capitalization, P/B, P/E, P/CF, and Dividend Yield for each security provided by Bloomberg, L.P. Please note that Bloomberg does not provide negative numbers in the data feed. Index fundamentals are calculated from holdings data as provided by the relevant index or by FactSet Fundamentals, excluding negative numbers for consistency. Thus, index fundamentals calculated by Brandes may differ from those computed and published by index providers.

†The portfolio characteristics shown relate to a single account deemed by Brandes to be generally representative of the strategy as of date noted. Not every account will have these exact characteristics. The actual characteristics with respect to any particular account will vary based on a number of factors including but not limited to: (i) the size of the account; (ii) investment restrictions applicable to the account, if any; and (iii) market exigencies at the time of investment. Data is updated on a quarterly basis.

The MSCI ACWI Value Index captures large and mid cap securities across developed and emerging markets exhibiting value style characteristics, defined using book value to price, 12-month forward earnings to price and dividend yield.

The information provided in this material should not be considered a recommendation to purchase or sell any particular security. It should not be assumed that any security transactions, holdings or sectors discussed were or will be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance discussed herein. Strategies discussed are subject to change at any time by the investment manager in its discretion due to market conditions or opportunities. The Brandes investment approach tends to result in portfolios that are materially different than their benchmarks with regard to characteristics such as risk, volatility, diversification, and concentration. International and emerging markets investing is subject to certain risks such as currency fluctuation and social and political changes; such risks may result in greater share price volatility. Stocks of small-sized and mid-sized companies tend to have limited liquidity and usually experience greater price volatility than stocks of larger companies. The declaration and payment of shareholder dividends are solely at the discretion of the issuer and are subject to change at any time.

GIPS® Report

Composite Name: Brandes Global Opportunities Value
Benchmark: MSCI ACWI Index
Reporting Date: December 31, 2025

(1) The measure of dispersion is the asset-weighted standard deviation for annual period gross returns in USD of all portfolios in the composite for the full reporting period. Beginning in 2017, dispersion is not presented for periods with less than 2 accounts in the composite. Prior to 2017, dispersion is not presented for periods with less than 6 accounts in the composite.

(2) The three-year annualized ex-post standard deviation measures the variability of the monthly gross composite returns and the benchmark returns over the preceding 36-month period.

* The net and gross annual returns, calculated in USD, presented for the Brandes Global Opportunities Value Composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. Cash and cash equivalents are included in performance returns.

Beginning January 1, 2018, Brandes Investment Partners includes Brandes Investment Partners, L.P., Brandes Investment Partners (Europe) Limited, Brandes Investment Partners (Asia) Pte Ltd. and the Brandes Investment Partners & Co. assets sub-advised by Brandes Investment Partners, L.P. For the period from 1/1/06-12/31/17 the SMA Division of Brandes was excluded from the GIPS firm definition. The firm was redefined to reflect the dissolution of the SMA Division and the firm bringing those former SMA Division assets into compliance with the GIPS Standards.

This composite was created in 2012. The inception date is 3/31/2012.

The Brandes Global Opportunities Value Composite seeks long-term capital appreciation by investing primarily in the equity securities of both U.S. and non-U.S. issuers irrespective of equity market capitalizations. The relevant index for diversification measurement is the MSCI ACWI. With respect to investments in emerging markets companies, the composite may typically invest up to the greater of either (a) 40% of total assets in emerging markets and frontier countries, at the time of purchase or (b) 200% of the weighting of non-developed markets companies in the relevant index, at the time of purchase. The portfolios will have the ability to hold up to 15% of total assets (at the time of purchase) in non-equity securities, including fixed income and convertible bonds, and up to 10% of total assets (at the time of purchase) in exchange traded funds, mutual funds or closed end funds, including other Brandes managed mutual funds or other pooled vehicles. The portfolios will generally be fully invested; however, the Global Opportunities Value portfolios may hold up to 20% of the assets in cash or cash equivalents.

Through September 2019 composite performance after management fee returns were determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account. As of October 2019, actual fees are used with the exception of select portfolios to which the applicable fee schedule was applied for the entire year to better reflect our typical management fees. For periods where actual fees were used to calculate the net return, a model fee representing the standard fee schedule is applied to any non-fee paying accounts.

Standard fee schedule - First $25 million 0.95%; Next $25 million 0.90%; Amounts over $50 million 0.80%. Brandes' investment advisory fees are detailed in Part 2A of its Form ADV.

Brandes claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Brandes has been independently verified for the annual periods 1995 through 2025. The verification report(s) is/are available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Global Opportunities Value Composite has had a performance examination for the periods since inception through year end 2025. The verification and performance examination reports are available upon request.

A list of composite and limited distribution pooled fund descriptions, a list of broad distribution pooled funds, and policies for valuing investments, calculating performance, and preparing GIPS Reports, are available upon request. Contact client service at 800-237-7119 or write P.O. Box 919048, San Diego, California 92191-9048 or email ClientService@Brandes.com.
