(1) The measure of dispersion is the asset-weighted standard deviation for annual period gross returns in USD of all portfolios in the composite for the full reporting period. Beginning in 2017, dispersion is not presented for periods with less than 2 accounts in the composite. Prior to 2017, dispersion is not presented for periods with less than 6 accounts in the composite.

(2) The three-year annualized ex-post standard deviation measures the variability of the monthly gross composite returns and the benchmark returns over the preceding 36-month period.

\* The net and gross annual returns, calculated in USD, presented for the Brandes U.S. Value Equity composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. Returns for some accounts in the composite reflect the deduction of a broker fee that includes transaction costs and may include advisory, custody, and other administrative fees.

Beginning January 1, 2018, Brandes Investment Partners includes Brandes Investment Partners, L.P., Brandes Investment Partners (Europe) Limited, Brandes Investment Partners (Asia) Pte Ltd. and the Brandes Investment Partners & Co. assets sub-advised by Brandes Investment Partners, L.P. For the period from 1/1/06-12/31/17 the SMA Division of Brandes was excluded from the GIPS firm definition. The firm was redefined to reflect the dissolution of the SMA Division and the firm bringing those former SMA Division assets into compliance with the GIPS Standards.

This composite was created in 1991. The inception date is 6/30/1991.

Prior to April 2014 accounts were removed from the composite when an account's market value falls below US\$50,000 due to capital withdrawals.

The Brandes U.S. Value Equity Composite seeks to provide long-term capital appreciation by investing primarily in the equity securities of U.S. issuers with equity market capitalizations that exceed \$5 billion at the time of purchase.

From 2010-2014 composite performance after management fee returns were determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account. From 2015-2018 composite performance after management fee returns were calculated using actual fees. Composite performance after management fee returns were determined by using the highest applicable fee schedule per account in January - September 2019. As of October 2019, actual fees are and using actual fees with the exception of select portfolios to which the applicable fee schedule was applied for the entire year to better reflect our typical management fees.

Standard fee schedule - First \$25 million 0.65%; Next \$25 million 0.55%; Next \$50 million 0.45%; Next \$50 million 0.40%; Amounts over \$150 million 0.35%. Brandes' investment advisory fees are detailed in Part 2A of its Form ADV.

Brandes claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Brandes has been

**Please see important disclosures on the following page.**

**Reporting Currency: USD**

independently verified for the annual periods 1995 through 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The U.S. Value Equity Composite has had a performance examination for the periods 1992-2021. The verification and performance examination reports are available upon request.

A list of composite and limited distribution pooled fund descriptions, a list of broad distribution pooled funds, and policies for valuing investments, calculating performance, and preparing GIPS Reports, are available upon request. Contact client service at 800-237-7119 or write P.O. Box 919048, San Diego, California 92191-9048 or email [ClientService@Brandes.com](mailto:ClientService@Brandes.com).

Investors should not rely on prior performance results as a reliable indication of future results.

In September 2021 the Brandes U.S. Value Equity composite benchmarks changed from the S&P 500 Index as primary benchmark and the Russell 1000 Value Index as secondary benchmark to the Russell 1000 Value Index as primary benchmark and the Russell 1000 Index as secondary benchmark effective back to the inception date of the composite. Brandes Investment Partners believes that the new benchmarks are better representative of the strategy's investment process and are therefore more suitable measurements for performance.

- (a) The Russell 1000 Value Index with gross dividends measures performance of the large cap segment of the U.S. equity universe. Securities are categorized as growth or value based on their relative book-to-price ratios, historical sales growth, and expected earnings growth. The benchmark returns are not covered by the report of independent verifiers.
- (b) The Russell 1000 Index with gross dividends measures the performance of the large cap segment of the U.S. equity universe. The benchmark returns are not covered by the report of independent verifiers.
