## Brandes Emerging Markets Value Fund I USD (ISIN: IE00B6SMR972)

Brandes Emerging Markets Value Fund I USD (the "Share Class"), a Share Class of Brandes Emerging Markets Value Fund (the "Sub-Fund"), a Sub-Fund of Brandes Investment Funds plc. The Fund is managed by Brandes Investment Partners (Europe) Limited (the "Manager")

### Objectives and Investment Policy

- The investment objective of the Sub-Fund is to seek long-term capital appreciation.
- The Sub-Fund is considered to be actively managed in reference to the MSCI Emerging Markets Index (the "Index"). Certain of the Sub-Fund's securities may be components of and may have similar weightings to the Index. However, the Sub-Fund may deviate significantly from the Index and the Manager may use its discretion to invest in countries or industries not included in the Index. In addition, the Sub-Fund is considered to be actively managed in reference to the MSCI Emerging Markets Value Index by virtue of the fact that it uses the MSCI Emerging Markets Value Index for performance comparison purposes. However, the MSCI Emerging Markets Value Index is not used to define the portfolio composition of the Sub-Fund or as a performance target and the Sub-Fund may be wholly invested in securities which are not constituents of the MSCI Emerging Markets Value Index.
- The Sub-Fund expects to be invested in approximately 35-85 issues. Typically, no more than 5% of the value of the Sub-Fund's total assets will be invested in any one security, at the time of purchase. With respect to the Sub-Fund's investments in any particular country or industry, the Sub-Fund may typically invest up to the greater of either (a) 20% of total assets in any particular country or industry at the time of purchase, or (b) 150% of the weighting of such country or industry as represented in the Index, at the time of purchase.
- The Sub-Fund primarily invests in equity and equity related securities of issuers located or active mainly in emerging markets.
- The investment focus will be on companies whose market capitalisations is greater than USD 3 billion at the time of purchase. At least two thirds of the investment of the Emerging Markets Value Fund (in terms of total assets) will be in equity securities of issuers located or active mainly in countries that, in the opinion of the Manager or the international community, are emerging or frontier country markets.
- The Manager's approach to selecting investments for the Sub-Fund is oriented to individual stock selection rather than on a top-down basis or macro-economic outlook. Securities are selected based on the Manager's assessment of long-term business worth compared to current value. Exposures to countries, sectors, and industries are a residual of this bottom up stock selection process.
- This Sub-Fund promotes environmental and/or social characteristics and is classified as an Article 8 fund under the EU's Sustainable Finance Disclosure Regulation ("SFDR").
- The Sub-Fund seeks to promote environmental and social characteristics through its exclusion screening process and consideration of principal adverse impacts on its investment decisions. In addition, the Sub-Fund monitors the Weighted Average Carbon Intensity ("WACI") at the portfolio level, relative to its Index. The Sub-Fund aims to maintain a WACI that is lower than the WACI of the Index on annual basis.
- The Manager can make investments for the Sub-Fund at its own discretion within the predefined investment limits.
- The Sub-Fund may invest no more than 10% of its net assets in other investment funds.
- This Sub-Fund can use derivatives, including forward foreign exchange contracts, futures, options and swaps, for investment purpose and to manage the portfolio efficiently.
- This is an accumulating share class – no dividend will be paid.
- Portfolio transaction costs are paid out of the assets of the Sub-Fund.
- The Sub-Fund employs a long-term investment approach and a holding period of at least 5 years is suggested.
- Investors can redeem shares in the Sub-Fund on any business day. The only exceptions are days when Euronext Dublin is closed or days when the New York Stock Exchange is closed.

### Risk and Reward Profile

#### What Does the Risk and Reward Profile show?

The risk/reward profile of the Share Class shows the variation in value that an investment in this Share Class has undergone. The Share Class's position on this scale is a reflection of the risk inherent in the Share Class under past market conditions. It does not reflect the risk inherent in any future circumstances or events that differ from what the Share Class has experienced in the past. Changes in the alignment of the Share Class within the boundaries set by the Sub-Fund's investment policy may also impact the risk/reward profile of the Share Class. In view of this, the risk rating of the Share Class may change in the future. Please note that higher possible gains generally also imply higher possible losses. The lowest risk rating does not mean that the Share Class is free of risk.

#### Why is the Share Class in this Category?

The Share Class is categorized as a 6 because the Sub-Fund is primarily invested in equities in a wide variety of markets. The Sub Fund is also exposed to specific movements in regional equity markets.

#### What are the other risks?

The risk/reward profile is a reflection of the risk inherent in the Sub-Fund under past market and operational conditions. It does not reflect the risk to which the Sub-Fund may be exposed in the case of extraordinary future events that differ from anything the Share Class has experienced in the past; nor does it reflect the risk due to operational failure or other risks that are beyond the control of the Sub-Fund and affect the investments of the Sub-Fund, such as legal and political risks, an unforeseeable drop in liquidity or the failure of counterparties. The Sub-Fund's investment in equity securities of companies in emerging markets may involve a high degree of risk and may be considered speculative. The Fund may invest in securities of issuers located in emerging market countries which may or may not be members of the OECD. Investments in emerging market securities pose additional risks including increased political and economic volatility, taxation risks, legal risks, inflation, exchange control and restrictions regarding foreign investment. In addition, restrictions on currency convertibility, limitations of property rights or other political risks may affect the Sub-Fund.
